"[Serensoft's] ability to carry out the hosting and installation of OSPortfolio allowed us to focus on the academic and pedagogical benefits of the electronic portfolio application."

— George Saltsman,
Director of Educational Technology
at Abilene Christian University

Supporting E-Portfolios for your students: **GETTING STARTED, made easy**

FOR FACULTY:

E-Portfolios Help your Students...

- Foster introspection
- Improve learning outcomes through context
- Allow students to "make connections" in their learning

E-Portfolios Help Faculty & the Institution...

- Improve the Curriculum
- Validate Teaching Methods
- Augment Program Assessment and Accreditation

E-Portfolio Buzz

As the concept of contextual learning becomes increasingly formalized, and expands beyond the walls of the traditional classroom, e-portfolios are emerging as the "must-have" tool to foster reflection, cumulative learning and assessment.

E-portfolios have the power to do many things:

- Improve the learning experience for students
- Deliver meaningful feedback for faculty in curriculum design

- Provide sound information to the institution on the potency, influence and validity of their programs
- Aid in Student retention and engagement

Getting Started is easy...

Don't know where to begin? Serensoft can help you get started with a true turn-key pilot.

- The most robust e-portfolio platform available—OSPortfolio
- Fully hosted (Class A Data center)
- Design, construction, training and support
- Multiple levels of pilot offering—starting at just \$995
- Faculty driven—no disruption to IT needed

FREE Test Drive

Just want to look? We can get you set up with a FREE test-drive.

- Get your hands on an actual e-portfolio site
- Build a Matrix—look at it from both the faculty and the student perspective
- No commitment

FOR THE I.T. DEPARTMENT:

Start with a Pilot

An institution-wide rollout of an e-portfolio solution is a *huge* undertaking. Each academic department will have different objectives—and consequently vastly different perspectives on how they want to use an e-portfolio. It's best to *begin with a pilot*.

- Get a feel for the application before committing to a particular platform
- Limited investment means limited financial risk
- Ability to focus on the needs of a small group to start
- No licensing costs (Community Source)
